

# AI Navigator

Chart your course for real AI adoption

## WHAT IT IS

A focused two-month engagement that turns AI opportunities into a practical roadmap. We bring business leaders and technical teams together, evaluate your systems and data, and define steps to make AI adoption real. You will leave with a clear strategy, a prioritized roadmap, and an implementation plan that positions your company to move with confidence.

## WHAT YOU GET

- ✓ ROI & Analysis – Business case modelling to prioritize opportunities with a measurable impact.
- ✓ Environment Readiness – Assessment of systems, data, and integrations to ensure your foundation is solid.
- ✓ Policies and Governance – Position your company to use AI properly and securely.

## WHAT YOU WALK AWAY WITH

### Strategic Clarity:

- ✓ A clear AI adoption strategy tailored to your business goals.
- ✓ Guidance on the right AI tools, models, and platforms for your needs.
- ✓ Alignment between business and technology on priorities and outcomes.

### Actionable Roadmap:

- ✓ A phased 6-12 month plan that balances quick wins with long term vision.
- ✓ A detailed implementation playbook that accelerates AI use case development.
- ✓ Executive ready presentation designed to drive decisions.

## INVESTMENT & TIMELINE

### Duration:

A focused two-month engagement designed to take your ideas to a ready to execute AI roadmap.

### Investment: Flat fee:

**\$20,000**

### Why Now:

- AI can unlock efficiency and savings.
- Clean data, integrated systems, and governance frameworks must be in place to avoid wasted spend.
- A clear plan ensures your company moves forward with confidence.

## Our Commitment

You are able to navigate your company's AI journey with clarity and confidence. We ensure that your team has the roadmap, foundations, and strategy to move forward aligned.
